A Very Different Story

This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. The challenges presented by feminism to traditional understandings of representation, normative values, power relations and the political are not simply the product of late-20th century thinking. Feminist Moments, in examining some of the pivotal texts in the history of feminist thought, demonstrates that these challenges emerge from a long and varied history of feminist writing. The volume brings together texts from literary and analytical works written by women and men, and from inside and outside the Western tradition, including Mary Wortley Montagu, Anna Wheeler and William Thompson, Nazira Zeineddine, Betty Friedan, Andrea Dworkin and Luisa Valenzuela. The volume is unique in offering close readings of key passages from the selected texts, making it ideal for classroom use; its original essays, all authored by specialists, will also be of interest to more advanced scholars. In juxtaposing and analysing a wide range of texts which despite their significance are rarely discussed together, Feminist Moments provides a fascinating historical narrative of feminist thought which will be highly valuable to students and scholars of the history of political thought, political
philosophy and gender and literary studies.

**The Feminism of Charlotte Perkins Gilman**

In Wild Unrest, Helen Lefkowitz Horowitz offers a vivid portrait of Charlotte Perkins Gilman in the 1880s, drawing new connections between the author's life and work and illuminating the predicament of women then and now. "The Yellow Wall-Paper" captured a woman's harrowing descent into madness and drew on the author's intimate knowledge of mental illness. Like the narrator of her story,
Gilman was a victim of what was termed "neurasthenia" or "hysteria"—a "bad case of the nerves." She had faced depressive episodes since adolescence, and with the arrival of marriage and motherhood, they deepened. In 1887 she suffered a severe breakdown and sought the "rest cure" of famed neurologist S. Weir Mitchell. Her marriage was a troubled one, and in the years that followed she separated from and ultimately divorced her husband. It was at this point, however, that Gilman embarked on what would become an influential career as an author, lecturer, and advocate for women's rights. Horowitz draws on a treasure trove of primary sources to illuminate the making of "The Yellow Wall-Paper": Gilman's journals and letters, which closely track her daily life and the reading that most influenced her; the voluminous diaries of her husband, Walter Stetson, which contain verbatim transcriptions of conversations with and letters from Charlotte; and the published work of S. Weir Mitchell, whose rest cure dominated the treatment of female "hysteria" in late 19th century America. Horowitz argues that these sources ultimately reveal that Gilman's great story emerged more from emotions rooted in the confinement and tensions of her unhappy marriage than from distress following Mitchell's rest cure. Wild Unrest adds immeasurably to our understanding of Charlotte Perkins Gilman, uncovering both the literary and personal sources behind "The Yellow Wall-Paper."

Complete Works of Charlotte Perkins Gilman

Charlotte Perkins Gilman (1860-1935) penned this sardonic remark in her autobiography, encapsulating a lifetime of frustration with the gender-based double standard that prevailed in turn-of-the-century America. With her slyly humorous novel, Herland (1915), she created a fictional utopia where not only is face powder obsolete, but an all-female population has created a peaceful, progressive, environmentally-conscious country from which men have been absent for two thousand years. Gilman was enormously prolific, publishing five hundred poems, two hundred short stories, hundreds of essays, eight novels, and seven years' worth of her monthly magazine, The Forerunner. She emerged as one of the key figures in the women's movement of her day, advocating equality of the sexes, the right of women to work, and socialized child care, among other issues. Today Gilman is perhaps best known for the chilling depiction of a woman's mental breakdown in her unforgettable short story, "The Yellow Wall-Paper". This Penguin Twentieth-Century Classics edition includes both this landmark work and Herland, together with a selection of Gilman's major short stories and her poems.

The Charlotte Perkins Gilman Reader
""The Yellow Wallpaper"" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine.[1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a ""temporary nervous depression - a slight hysterical tendency"", a diagnosis common to women during that period.

Living with Charlotte Perkins Gilman

""This is written from memory, unfortunately. If I could have brought with me the material I so carefully prepared, this would be a very different story. Whole books full of notes, carefully copied records, firsthand descriptions, and the pictures - that's the worst loss. We had some bird's-eyes of the cities and parks; a lot of lovely views of streets, of buildings, outside and in, and some of those gorgeous gardens, and, most important of all, of the women themselves. Nobody will ever believe how they looked. Descriptions aren't any good when it comes to women, and I never was good at descriptions anyhow. But it's got to be done somehow; the rest of the world needs to know about that country."

Unpunished

The Yellow Wallpaper

This volume delves intensively into religion and the influence of gender. Gilman suggests that through the development of secular ethics, religion can be directed not to the anticipation of a mythical afterlife, but instead to the transformation of the present. She demonstrates the ways in which a male driven ideology has produced a religion focused on death, discouraging any attention to the improvement of life on earth. Here, Gilman offers new thoughts that advocate a collective change of view.

Startling in its observations and radical in its conclusions, this classic of women's rights literature, this work-by pioneering American feminist CHARLOTTE PERKINS GILMAN (1860-1935)-was a phenomenon when it was first published in 1898, and was eventually translated into in seven languages and reprinted around the world. From her characterization of women as virtual economic, social, and sexual slaves, dependent on men for everything from food to friendship to protection, to her call for women to free themselves from these shackles, Women and Economics electrified Victorian readers. It remains a foundational work of feminist theory, essential reading for anyone wishing to understand women's struggle for full and self-determined personhood.

**The Living of Charlotte Perkins Gilman - An Autobiography**

This book contains 167 of the favorite poems of one of the most engaging intellectual leaders of the turn-of-the-century women's movement, Charlotte Perkins Gilman (1860-1935), who enjoyed a highly visible career as an activist, author, and lecturer. An influential social theorist and champion of women's economic independence, Gilman became an enormously prolific writer. Her highly acclaimed first edition of verse, In This Our World (1893), earned her instant celebrity and was followed by such groundbreaking works as Women and Economics (1898) and The Home (1903). At the time of her death, Gilman was in the process of preparing a second volume of her poetry for publication. Although she grew increasingly weak during the final stages of her three-year battle with breast cancer, Gilman's resolve to see her second book of poetry in print never diminished. She left the manuscript in the care of Amy Wellington, an editor and friend, for posthumous publication. "These poems", Wellington acknowledged, "are the full-flowering of Charlotte Gilman's philosophy". She failed, however, to place the manuscript, and it has remained unpublished until now.

**The Crux**

Bachelor Thesis from the year 2018 in the subject English - Literature, Works, grade: 3,0, University of Salzburg, language: English, abstract: The goal of this paper is to demonstrate Charlotte Gilman’s personal view on feminism, and her realisation of feminism in the utopian novel "Herland". This feminist utopian novel is one of the last texts that belong to the early- twentieth- century wave of feminism. Charlotte Perkins Gilman was a feminist and a Progressive Era public intellectual whose concern were the struggles of the women of her time. She questioned the hierarchical structures and the division of power, labor, and discourse. Her desire was to create a world in which men and women are equally autonomous selves and live together as humans. Here, she stressed that women needed attention as their economic, social, and cultural retardation hindered human progress. Her writings are significant reminders of the patriarchal world in which women were suppressed by the power of men. Gilman believed that marriage and the arrangement of the nuclear family as well as domesticity were the main reasons for women’s oppression. According to her, women were seen only as a sexed group that was subordinated by men. Not only did she search for the roots of this subordination, but also focused on education with the goal of creating a humane and nurturing environment. Basically, she wanted to achieve changes regarding marriage, home, the education of children, and women’s work.

**His Religion and Hers**

In 1890 a poem entitled Similar Cases appeared in the USA in The Nationalist. In it, one of that country's best-known utopian writers, Charlotte Perkins Gilman, propounded the over-arching theme that was to concern her until she died in 1935: that mankind and the world can be changed for the better. The poem earned her much praise in nationalist circles and marked the beginning of a reformist career which was to last for 45 years, during which time Gilman established a national reputation as a speaker on women's issues and socialism, writing extensively in these areas while at the same time continuing to write poetry, short stories and novels.

The Collected Works of Charlotte Perkins Gilman

Charlotte Perkins Gilman’s provocative utopian novel Herland, first published in 1915, tells its story through the observations of three male explorers who discover a land inhabited solely by women; the women reproduce through parthenogenesis (asexual reproduction). Initially skeptical, the explorers come to realize that Herland has evolved into an ideal, cooperative, matriarchal society—fertile, peaceful, and clean—by selectively reproducing the women’s best attributes. As the explorers study Herland culture, they also rethink their own. This edition reproduces the text originally published in The Forerunner in 1915, including several passages omitted from other editions. Stories, poetry, and nonfiction writing by Gilman on topics such as birth control, capital punishment, and eugenics provide a rich context for the novel. Materials originally published alongside Herland in 1915, many of which have never before been republished, are also included, as is an excerpt from the sequel, With Her in Ourland.

**Women and Economics Illustrated**

Herland (1915) is a utopian novel by American author and feminist Charlotte Perkins Gilman. Herland was originally published in The Forerunner, a monthly magazine edited by Gilman, before going out of print for the next several decades. The novel was republished with an influential introduction by scholar Ann J. Lane in 1979 and has since been recognized as an important work of science fiction written by a leading feminist of the early twentieth century. A sociologist and his two friends embark on an expedition to discover a rumored land where a lost civilization of women lives apart from the rest of the world. They journey by plane and, upon landing, are quickly captured by a group of women. Taken to town, the men are held in a central fortress where they are treated well and encouraged to learn more about the women’s culture in order to assimilate. They are taught the history of the land, which has been without men for two thousand years, and learn that the women are able to reproduce asexually. Although they recognize the utopian qualities of the society and despite being impressed by the beauty and order of its structures, the men struggle to live without presupposed notions of gender and patriarchy. When an escape attempt goes awry, they are forced to abandon their prejudices, joining the society through marriage. When one of the group fails to respect their hosts’ ideals of gender equality, however, the men are forced to make a decision that could endanger the continued existence of the utopia. With a beautifully designed cover and professionally typeset manuscript, this edition of Charlotte Perkins Gilman’s Herland is a classic of American literature and science fiction reimagined for modern readers.
